T. E. FERNALD,  
*School Treasurer.*

---

Nottingham, N. H., July 8, 1922.

I hereby certify that I have this day examined the accounts of the School District of Nottingham and find them correctly cast and properly vouched.

HARRY D. CILLEY,  
*Auditor.*

## Report of Superintendent of Schools.

---

*To the School Board of Nottingham :*

The work in our schools as a whole was very satisfactory last year. It is to be regretted that more citizens, especially parents, do not visit the schools and learn about class-room activities from observation. False reports sometimes cause erroneous ideas about the work schools are really doing. If more people would spend time inspecting the work of the classes, I am sure there would be added interest in the affairs of the school district, and a better understanding of the aims and ideals of class instruction.

While the average attendance in our schools is better than in some districts, it is not satisfactory. We should have a better per cent of attendance. This will be possible only when parents recognize the importance of regular attendance, and insist that their children absent themselves from school only when it is absolutely necessary. The number of pupils tardy at the Center school last year was far more than was necessary. It is not only detrimental to effective school work to have pupils tardy, but it is a very bad habit to have our boys and girls acquire. This record can be improved only as the parents co-operate with the teachers in encouraging the pupils to reach the school on time.

The Potato and Cooking Clubs, which were organized among the upper grade pupils, are worthy of commendation. The adult leaders who sponsored these clubs, and gave much time to their activities, merit much praise for their loyalty and devotion to the welfare of the boys and girls of our schools.

Each year a physical examination of all school children is made by a physician. Cards are sent to parents advising them of physical defects and recommended treatment. A few parents heed these recommendations and have the defects cared for. Many pay no attention to the warnings, and the children continue laboring under physical handicaps which could be remedied. A mere cataloguing of defects is of little benefit. It is only when action is taken that the pupils will profit from the physical examinations. I wish some agency could become effective in caring for the children whose parents cannot or will not have them given proper treatment. Adenoids, hypertrophied tonsils, and defective teeth retard physical and mental growth, more than most parents realize. Our schools will never measure up to their highest possible degree of efficiency until all known physical defects are given proper treatment.

Respectfully submitted,

CLARENCE C. SANBORN.

## NOTTINGHAM SCHOOL STATISTICS, 1921-22.

SCHOOL.	TEACHER.	Total Registra- tion.	Average Attend- ance.	Per Cent of At- tendance.
Center Grades 1-4	Nellie E. Fellows.....	25	21	94
